

AURORA DEVELOPMENT : PART 1

Melway Reference 181 H5

Epping North Victoria Australia

Aurora is approximately 20 kilometres north of the Melbourne central activities district and consists of about 634 hectares of land. Aurora aims to raise the benchmark within the land development industry by demonstrating new and innovative ways to manage our finite resources. Aurora will be a pioneer in the reuse of water and energy efficiency.

The Aurora Development Plan: Part 1 (ADP1) relates to Section A of Aurora and is approximately 37 hectares. The ADP1 designates proposed housing areas and other main land uses, collector and arterial street layouts and the location of community facilities for a comprehensively planned development of land. The ADP1 forms the framework for more detailed planning at the subdivision and permit application plans stages.
