

VILLAGE PLAYGROUND

Melway Reference 13 B9

Burnside Heights Victoria Australia

The Village Playground (in Tenterfield Drive, Burnside Heights) is a unique design by Collie for children of all ages and abilities to enjoy using its bright equipment and adventurous layout. The playground provides physical, tactile and visual entertainment with educational pieces to allow for passive play. The Village road and shops encourages role playing. The playground also includes public artwork designed for children.

The gardens designed by Collie surrounding the playground extend the exciting play space. The garden design and plant selection encourage children to explore and discover the variety of plants. A 'secret' entrance to the playground will feature mosaic artwork incorporating designs created by the children living at Tenterfield.

Awards

Parks and Leisure Australia in conjunction with the Playgrounds Association of Victoria 2007 Award for Playspace Excellence in Design recognising good practice and innovation in playspace design
