

MAJOR PROJECTS IN THE CITY OF MOONEE VALLEY

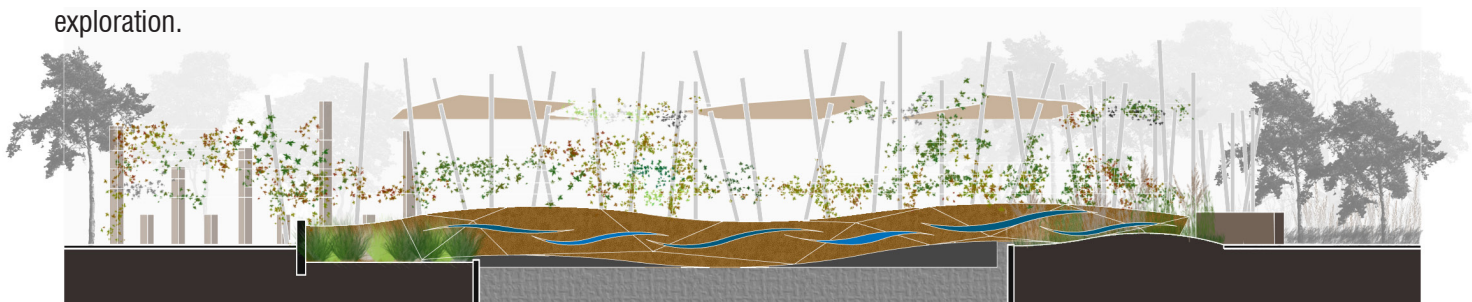

One of the most rewarding parts of any project is seeing the commencement and then completion of construction. It is exciting therefore, to see construction complete for one major project in the City of Moonee Valley and construction underway on two others. Click [here](#) for more.

**VICTORIAN CIVIL AND ADMINISTRATIVE TRIBUNAL - MAJOR CASES LIST**

VCAT's new Major Cases List for planning developments worth more than \$5 million commenced on 3 May 2010. Click [here](#) for more information.

DAVEY STREET BRIDGE

As an exploration by Collie in considering its response to the Frankston City Council open design brief to create artwork for the new Davey Street Bridge (which connects the commercial precinct with the foreshore), our landscape studio contemplated the Bridge itself as a representation of the boating activity evident in its vicinity. Our thoughts included elements reminiscent of masts, sails and rigging, and echoes the more substantial ocean going ships that cruise by, through the inclusion of steel sides and abutting box shapes. Click [here](#) for more images of our exploration.

**COLLIE DUGONGS - MS 24HOUR MEGASWIM**

The 'Collie Dugongs' participated on 26 and 27 February in the MS 24-Hour Mega Swim at the Fitzroy Pool for the seventh year. The event raises money for multiple sclerosis and the Dugongs have been very active with their fundraising, including hosting Bunnings barbeques (thank you to Bunnings).

The Collie Dugongs swam 70.60 kilometres and raised \$11,500. The overall event raised a record \$275,000.

To all of you who helped the team, either by donating money or taking time to drop into Fitzroy Pool over the 24 hours to cheer on the Dugongs, we thank you.

DID YOU KNOW...?

Melbourne's first 'skyscraper' was the ICI building on Nicholson Street, East Melbourne, now known as the Orica Building. Until 1958, building heights had to be less than 132 feet, as this was the highest fire ladders could reach. From November 1958 to 1961 the ICI building was the tallest building in Australia. It contains 19 storeys!
